The diagrams illustrate the evolution of a game tree structure across three stages:

- Diagram 11.03:** Shows a game tree with two main branches. The left branch starts with a node labeled **A1(11.03)** and leads to a node labeled **WO**. The right branch starts with a node labeled **A2(11.03)** and leads to a node labeled **0 - 5**.
- Diagram 11.04:** Shows the addition of a new node **A16(11.04)** and a new edge **ABD** connecting the **WO** node to **A16(11.04)**.
- Diagram 11.05:** Shows the addition of a new node **A37(11.05)** and a new edge **A37(11.05)** connecting the **A16(11.04)** node to **A37(11.05)**.

The diagrams illustrate the evolution of a game tree structure across three stages:
